Welcome to my math notes site. Contained in this site are the notes (free and downloadable) that I use to teach Algebra, Calculus (I, II and III) as well as Differential Equations at Lamar University. The notes contain the usual topics that are taught in those courses as well as a few extra topics that I decided to include just because I wanted to.

The Test Results Below Suggest That Algebra Helps Develop Logic and Symbolic Reasoning Skills. To find out what the bar graph above represents, check out the Logic and Symbolic Reasoning Test Results page.

Math Motivation - What is the Value of Algebra?

Algebra (from Arabic "al-jabr", literally meaning "reunion of broken parts") is one of the broad parts of mathematics, together with number theory, geometry and analysis. In its most general form, algebra is the study of mathematical symbols and the rules for manipulating these symbols; it is a unifying thread of almost all of mathematics. It includes everything from elementary equation solving ...

Deadline for schools to apply to join the AP Capstone Diploma program in 2019-20.

AP Central – Education Professionals – The College Board

In linear algebra and functional analysis, a projection is a linear transformation from a vector space to itself such that $P^2 = P$. That is, whenever P is applied twice to any value, it gives the same result as if it were applied once ($P(P(x)) = P(x)$). It leaves its image unchanged. Though abstract, this definition of "projection" formalizes and generalizes the idea of graphical projection.
