COMPILER DESIGN LECTURE NOTES (Subject Code: BCS-305) for Bachelor of Technology in Computer Science and Engineering & Information Technology Department of Computer Science and Engineering & Information Technology

(Subject Code: BCS-305) for Bachelor of Technology

Features. Object-oriented programming uses objects, but not all of the associated techniques and structures are supported directly in languages that claim to support OOP.

Object-oriented programming - Wikipedia

My research focus on design and implementation of programming abstractions in areas that have included real-time embedded systems, concurrent and distributed systems and more recently scalable data analytics.. I have published in venues that specialize in Programming Languages, Virtual Machines, Compilers, Software Engineering, Real-time Computing, and Bioinformatics.
