Ofsted's 2012 report "Made to Measure" suggests that although manipulatives are used in some primary schools to support teaching and learning they are not used as effectively or as widely as they might be. This article explores some research into their use and offers some suggestions about how using practical apparatus can support children's mathematical thinking, reasoning and problem ...

Mathematically, in its most general form, a hierarchy is a partially ordered set or poset. The system in this case is the entire poset, which is constituted of elements. Within this system, each element shares a particular unambiguous property. Objects with the same property value are grouped together, and each of those resulting levels is referred to as a class.

Science, Technology, Engineering and Mathematics (STEM), previously Science, Math, Engineering and Technology (SMET), is a term used to group together these academic disciplines. This term is typically used when addressing education policy and curriculum choices in schools to improve competitiveness in science and technology development. It has implications for workforce development, national ...
