The semantic feature analysis strategy uses a grid to help kids explore how sets of things are related to one another. By completing and analyzing the grid, students are able to see connections, make predictions and master important concepts. This strategy enhances comprehension and vocabulary skills.

Introduction. Reading is a fundamental skill that defines the academic successor failure of students. As noted by Barbara Foorman from the University of Texas, Houston Medical School, "88 percent of students who were poor readers in first grade were poor readers in fourth grade" (National Institute of Child Health and Human Development [NICHD], 2000, 9).

Sight-reading, also called a prima vista (Italian meaning "at first sight"), is the reading and performing of a piece of music or song in music notation that the performer has not seen before. Sight-singing is used to describe a singer who is sight-reading. Both activities require the musician to play or sing the notated rhythms and pitches. Many believe that sight-singing is the more ...
